

Mr Eric, ECA

School Age Classroom

Where did you go to school?

I currently attend York University where I'm working towards my BA in English and then focusing on my teaching degree.

How many years have you been working with children?

I completed my coop at the elementary school, Immaculate Conception, working with a variety of classrooms ranging from grades 4-8.

What is your favourite activity in the classroom?

To see children learn through science and art is my favourite thing in the classroom. It's always amazing watching children learn and engage through the various experiments in the class and watching how they display their emotions through their artistic skills.

What is your vision for the centre/classroom?

My vision for the centre and the classroom would be making it a place where the children feel comfortable, learning through various forms of engaging activities that challenge the children's learning development in a healthy way, a centre where all children can excel and learn at their own pace.

What is your favourite past time/hobby?

Spending time and interacting with family and friends. Whether it's a simple day in the house where we all watch movies or play board games or one where we go to a museum or park. I also enjoy playing sports as well. I enjoy playing tennis and soccer in the summer with friends.

Favourite/inspiring quote: "Tell me and I forget. Teach me and I remember. Involve me and I'll learn." - Benjamin Franklin
